

§ 24.80

27 CFR Ch. I (4–1–16 Edition)

FORMULAS

§ 24.80 General.

The proprietor shall, before production, obtain approval of the formula and process by which special natural wine, agricultural wine, and other than standard wine (except distilling material or vinegar stock) are to be made. The formula must be prepared and filed on TTB F 5120.29, Formula and Process for Wine, in accordance with the instructions on the form. A nonbeverage wine formula will show the intended use of the finished wine or wine product. Any formula approved under this section will remain in effect until revoked, superseded, or voluntarily surrendered. Except for research, development, and testing, no special natural wine, agricultural wine, or, if required to be covered by an approved formula, wine other than standard wine may be produced prior to approval by the appropriate TTB officer of a formula covering each ingredient and process (if the process requires approval) used in the production of the product.

§ 24.81 Filing of formulas.

The proprietor shall on each formula filed designate all ingredients and, if required, describe each process used to produce the wine. The addition or elimination of ingredients, changes in quantities used, and changes in the process of production, or any other change in an approved formula, will require the filing of a new TTB F 5120.29. After a change in formula is approved, the original formula must be surrendered to the appropriate TTB officer. The proprietor shall serially number each formula, commencing with “1” and continuing thereafter in numerical sequence. Nonbeverage wine formulas will be prefixed with the symbol “NB.” The appropriate TTB officer may at any time require the proprietor to file a statement of process in addition to

that required by the TTB F 5120.29 or any other data to determine whether the formula should be approved or the approval continued.

§ 24.82 Samples.

Except for vinegar and salted wine as defined in § 24.215, the proprietor shall submit under separate cover at the time of filing any nonbeverage wine formula a 750 mL sample of the base wine used and a 750 mL sample of the finished wine or wine product. The latter sample will be considered representative of the finished product. Any material change in the flavor or other characteristics of the finished product from that of the approved sample will require the filing of a new formula even though the ingredients may be the same. In addition, the appropriate TTB officer may, at any time, require the proprietor to submit samples of any wine or wine product made in accordance with an approved formula or of any materials used in production.

ESSENCES

§ 24.85 Essences.

Essences or extracts (preparations of natural constituents extracted from fruit, herbs, berries, etc.) may be used in the production of any formula wine except agricultural wine. The essences may be produced on wine premises or elsewhere. Where an essence contains spirits, use of the essence may not increase the volume of the wine more
